INDIAWOOD 2025: CELEBRATING 25 YEARS OF INDUSTRY EVOLUTION

INDIAWOOD 2025 concluded with resounding success, commemorating 25 years of progress in the woodworking and furniture manufacturing industry. Held at the India Expo Mart in Greater Noida, the event reaffirmed its position as the industry's leading platform - spotlighting emerging technologies, sustainable solutions, and future-focused innovations. With active participation from stakeholders across India and around the world, it served as a vibrant hub for knowledge exchange, business networking, and product discovery

This milestone edition highlighted India's growing influence on the global stage, further enhanced by special segments like Surface in Motion, India Mattresstech Expo, and Wood+ in Architecture & Design. As the industry moves forward with automation, eco-conscious materials, and design-driven solutions, INDIAWOOD remains a powerful force in shaping the future of the sector. The momentum now carries forward to KolkataWood 2025 - continuing the journey of industry transformation

VISITOR BREAKDOWN BY INDUSTRY

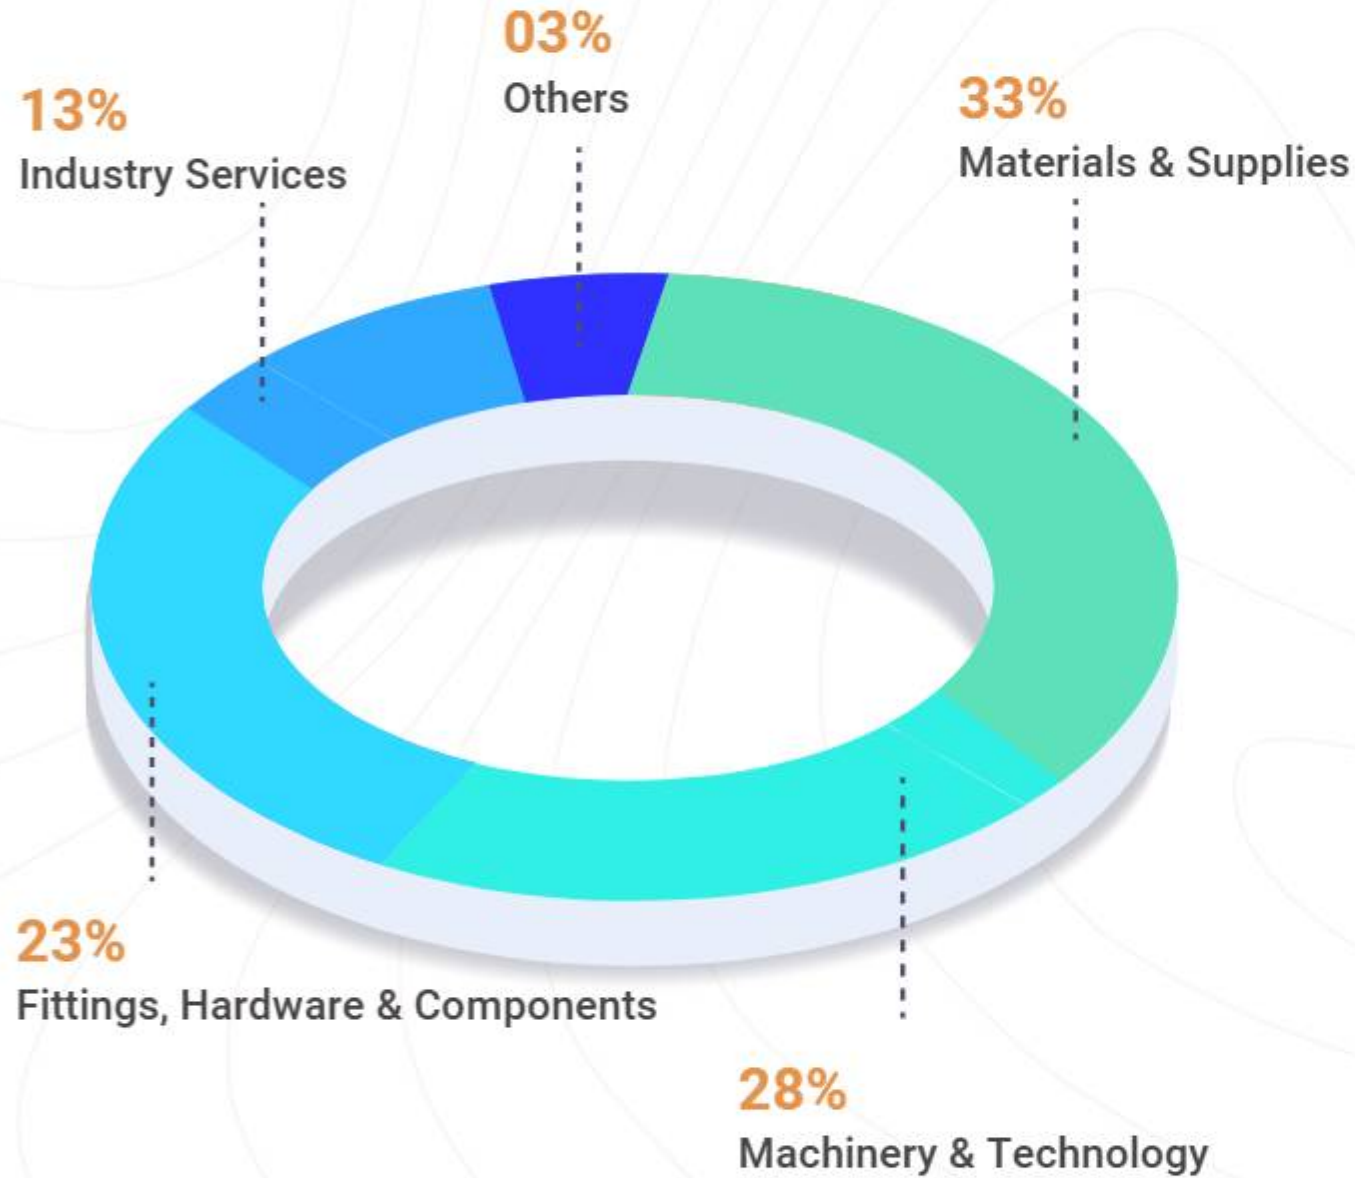

“

INDIAWOOD has always been the most ideal platform to connect the industry with the people and the people with the industry. It is one platform where you get to see the machines, surfaces, and other solutions related to wood all under one roof. For 4 days, you get to interact with the best in the business, see the latest innovations, and gain nuggets of wisdom and knowledge that are essential for growth in the industry. Visitors leave equipped with valuable insights, which help them drive their businesses forward. It is a truly invaluable experience for anyone in the wood manufacturing space

”

AREA OF INTEREST

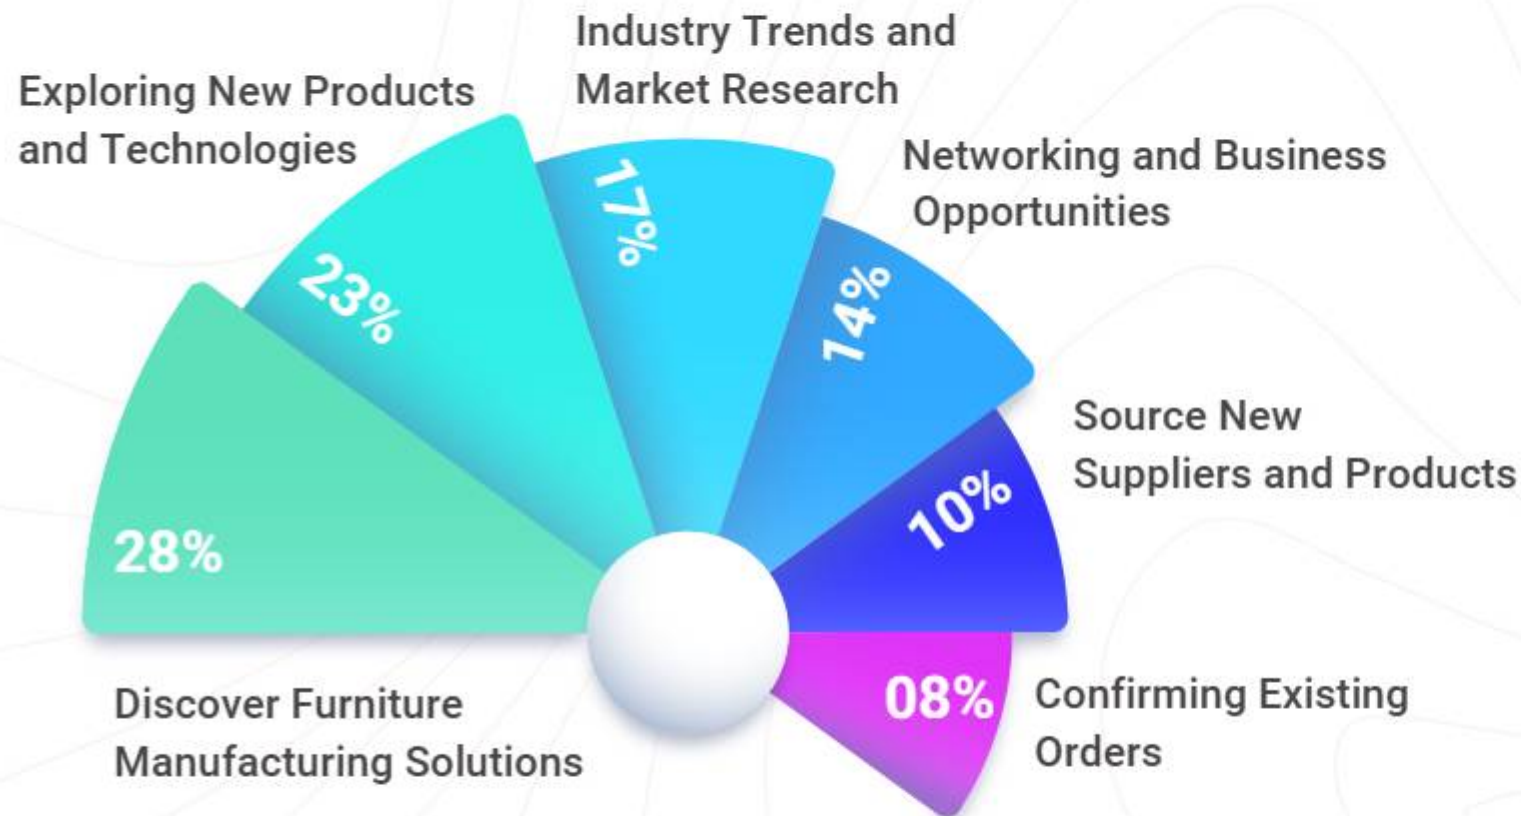

“

INDIAWOOD is a powerful platform that, for 25 years, has brought together manufacturers and customers to witness the evolution of woodworking in India. At BIESSE, we proudly support the 'Make in India' initiative—manufacturing world-class woodworking machines right here in India since 2008 and exporting them globally. INDIAWOOD gives us the perfect stage to showcase these innovations and connect with our growing market

Souma Ray, Biesse India

REASON TO VISIT

“

It's been a pleasure to be part of INDIAWOOD since 2004—this is perhaps the only platform in India that truly supports wood and those passionate about working with it. We've participated almost every year, and since 2014, we've proudly represented Canadian Wood here. INDIAWOOD brings together the entire woodworking ecosystem—designers, architects, manufacturers, and machinery suppliers—under one roof, helping grow the community of professionals who are shaping the future of wood in India

Pranesh Chhibber, Canadian Wood

WOOD+ IN ARCHITECTURE & DESIGN

Sustainable • Hybrid • Applications

Elevating architecture and design with versatility and sustainability

The 4th edition of Wood+ in Architecture & Design emerged as a standout feature at INDIAWOOD, bringing together a dynamic community of architects, designers, and industry professionals to celebrate the enduring relevance of wood in modern architecture and design. With insightful sessions exploring the material's versatility, sustainability, and aesthetic value, the conference offered a platform for meaningful dialogue and inspiration. Held alongside INDIAWOOD, the event enriched the overall experience by bridging innovation in woodworking technology with real-world applications in architecture and design, reinforcing wood's vital role in shaping the built environment.

BRANDING ACROSS ALL TOUCHPOINTS

“

INDIAWOOD has done an exceptional job in bringing together manufacturers from all over the world, offering a unique platform where customers from the Indian woodworking industry can benefit. The information available at INDIAWOOD is priceless—visitors can explore the latest trends, technologies, and innovations that are shaping the industry. It's a fantastic opportunity to see how new technologies can enhance manufacturing processes, sales, and operations in the Indian woodworking industry. Every manufacturer in the country should visit this show to stay updated and take advantage of the opportunities it provides

“I’ve been part of the woodworking industry for more than 20 years, and I’ve witnessed INDIAWOOD progress tremendously over the years. What was once considered a handcrafted industry has now evolved into a high-tech sector. INDIAWOOD’s continuous growth has made it a globally recognized exhibition, attracting attention from all over the world for woodworking machinery and products. We’ve grown alongside INDIAWOOD for the last 20 years, and it’s been a remarkable journey
